

Policies for Freedom

1 Ban on 15 Minute Cities.

Ensure that govts are never allowed to implement programs that remove or infringe on our past rights and freedoms for any reason without a FULL vote of approval by the voting public (50% of all eligible voters). All funding for climate initiatives must be self funding without the use of tax revenue or govt debt unless a full majority of the voting population votes to approve such measures as a public initiative of the voting population (no 3rd party policies). Any politicians attempting to do so will be removed from power and banned from politics for life. Govt employees will be dismissed without pay and banned from employment with the govt.

2 Stand Your Ground Laws

The right to use any weapon to protect your property and life from a violent attack will become a basic human right. All rights of individuals while committing a crime will be suspended until the individual stops committing the crime. Individuals who protect themselves or their family from violence or property crimes with the use of a weapon including a gun will be protected from any and all charges relating to the event. Offenders will be blocked from receiving compensation for injuries from the event. To qualify those who seek protection under this law must prove they notified the offender that they were armed and that they are implementing stand your ground rules, that they did not lure the offender or instigate the offense in any way and that they had a reasonable expectation that their life or property was in jeopardy. There will be no 'measurement of weapon' against the offense as all trespass and threat offenses will justify any and all responses and the use of any level of force including deadly force under this protection. Mental health and drug abuse will not be permitted as a defense for offenders on either side of this protection. These protections will only apply to personal space and personal property and will not apply to government, business or group property. Any and all govt employees will dutifully carry out this protection without question. Politicians and governments will not be permitted to counter this protection in any way and if they attempt to do so will be removed from office and banned from holding office for life. Govt employees who attempt to counter or end these protections will be dismissed from government and banned from working in government for life.

We will be adding new policies as elections approach & support candidates who agree.

Join us at our upcoming policy events where the people of Alberta will set the agenda or join a candidate prep forum for those who want to run for office.

We will take back our freedom.
