

The Supremacy of Individual Rights & Freedoms

Individual Rights & Freedoms are the foundation of human life. They provide us with the ability to live in peace & harmony with others because we all share them equally. They protect us from those who would seek to do us harm & those who seek to rule over us with an iron fist & at the barrel of a gun.

Our Rights & Freedoms provide all of us equally with the unlimited opportunity to excel to the greatness of our abilities & talents & this gives us the hope that drives us to innovate, achieve & succeed as humans. Without them we have no hope for the future & we lose what makes us human.

Today our Rights & Freedoms are under attack by groups like governments, media & giant corporations who do not accept Individual Human Rights & Freedoms because those Rights & Freedoms block their total domination over our lives. If we can live as individuals, then we cannot be controlled, only negotiated with. If we are subservient to the group then they will own & control everything.

The leaders of these groups, including the political elites who control our governments & the financial elites who control corporations, seek to remove your Rights & Freedoms by undermining the society in which you live through division, collusion & by obscuring those things that unify us as free humans.

They seek to turn us against one another using the media to cause confusion & instigate falling trust in the structures that once kept our societies strong like truth, honor, dignity, transparency, honesty, empathy & fact. They seek to stop our ability to identify & surface the truth & find common ground with others because they seek to force their Utopian vision & version of their common ground on all of us. They don't want free thinking individuals, they want obedient mindless drones who follow the narrative of the group.

The reason the elites dislike Individual Rights & Freedoms is simple. In order to dominate & suppress others for their own elite benefit, they must undermine the foundation of society & direct democracy to make basic universal Human Rights & Freedoms subservient to their own Rights & Freedoms.

In doing so, the benefits of Rights & Freedoms flow from you & your family to the elites & their families, their friends & their supporters & with it, all of your wealth. The easiest way to do this is for them to form a group be it a government, a corporation, an advocacy, non government agency, forum, association, political action committee, union or any other real or fabricated grouping of people to create a mass large enough to hold the balance of power over others at the election.

It is in this way that groups use narratives like 'the greater good' or 'new world order' or 'privilege' or 'victimhood' to achieve & maintain dominance over others through division. It also only requires as

little as 10% of the vote to win power. In the last Calgary election of 1,336,000 people, the Mayor received only 174,649 votes or just 13% of the population.

The ability to rig elections is getting easier each year especially if you can fund enough candidates to fill the ballot & divide the people into like minded voting blocks to help split the votes of those you oppose. It all starts by hiding who is funding the candidates & who is voting. It is not by chance that the majority of elections are nearly 50/50. They are this way by design to create the illusion or facade of a close race & raise uncertainty in the minds of the electorate that something is obviously not right. This helps temper the anger of the public and obscures the notion that the vote was rigged. It also provides an easy method to stack the votes in favor of your chosen candidate with only a few ballots. At 50/50 you only need a few votes to tip the scales in your favor.

Their goal is to win power & then begin the process of undermining Individual Rights & Freedoms while increasing the Rights & Freedoms & wealth of others primarily their supporters. This was clear & evident in recent protests where the 'inconvenience' of imagined groups were held superior to the basic Human Rights of protesters & then used as a pry to invoke so called emergency powers. These new powers were turned against the protesters who's views & concerns were deemed by the elites to be 'unacceptable'.

At NO time did these 'representatives' attempt to negotiate with the protesters in good faith. They simply passed emergency laws & sent in the police to use violence & other groups like banks to perform illegal asset seizures. The goal wasn't to stop a protest, it was to remove the Rights & Freedoms we all share equally. Contrary to what the groups tell you, it is a human right to freely assemble & voice an opinion. It is **NOT** a human right to have a public street exclude some members of the public exclusively for your own private convenience or to silence the noise of those protesters that are directed at the government.

If we lose or give up our Individual Rights & Freedoms, such as the right to free assembly, the right to have & publish a personal opinion, the right to protest, the right to own & control our body & our property, the right to be free of violence, the right to choose what happens to us, the right to access public spaces & the freedom to select our leaders in openness, transparency & honesty, then we will lose hope and we will fall into a pit of tyranny where we become slaves to the elites who own & control the special interests that run those groups and who seek to dominate us. There will be no future in this world for you or your children. Look no further than the cult that is China for what the future of social tyranny holds for Alberta.

There is no option here. We have no alternatives. We must protect our Individual Rights & Freedoms and they must hold supremacy over the Rights & Freedoms of groups like governments, corporations, special interests & others including the leaders of those groups, otherwise we risk our own annihilation. We will become indentured servants to the masters of wealth & power who will reign over us with terror & violence to ensure their control over us is absolute. They will use state sanctioned violence in the form of wars & police to ensure our obedience forevermore. They will give themselves & their families unending power and remove all of the wealth from our world for their own exclusive benefit.

Individual freedom comes from the protection of our basic Individual Human Rights and as a single unified people, we can regain & retrieve those Rights that others died to protect and that we have allowed to slip from our grasp. The granting of emergency powers to political elites backed up by the force of guns is not an acceptable event in any modern & intelligent society. There is simply no need for emergency powers in a free democracy. We are not at war, or under threat. We already have laws

governing violence. We do not need to grant emergency powers to political elites. Emergency powers are simply a method for these elites to take control of the people and remove our fundamental Human Rights and Freedoms and there is no argument that can justify any 'emergency powers' that remove our Rights & Freedoms.

We must disallow our government from ever passing another round of emergency measures ever again by making such powers illegal and an act of treason. Recently, governments & politicians have been implementing emergency powers for everything from health mandates to protests & now moving to suppress free speech, property rights and even jailing those who the governments disagree with. It is not their right. We the people did not grant our 'representatives' the right to do this. We did not agree to permit a political minority of career politicians & their puppet masters to remove our Rights & Freedoms and yet the political elites are doing exactly that from Calgary to Ottawa.

We can change the course of this history and we can regain our Individual Rights & Freedoms.

We do so by voting & supporting those who seek to change the trajectory of the current world where voting is obscured & rigged, where emergency powers are used to suppress our basic Human Rights, where the political elites are entitled to hide how & where they spend our tax revenue, where governments are permitted to put us into debt and remove our Rights & Freedoms without our direct approval and where a few control the many by dividing us into smaller & smaller factions driven by hate and we must shout down those who stand against our Rights and Freedoms.

We must stand united against this new world order where the elites own & control everything and you are simply an input into their means of production and domination.

You can live free, you can be free, your children can be free and not be locked up as debt slaves to elites who own everything and demand you be happy.

It is a simple choice and it starts with a single vote and by you stepping up to actively support those who stand for Individual Rights & Freedoms and by turning your back on those who do not.

It begins by opening up all the elections to ensure fairness, honesty & transparency and ensuring we all vote without exception.

From exposing the funding of all candidates & all large donors to the residency status of those who vote to ensuring that only a person who has a right to vote is actually the person voting and to ensure they can only vote once. In short, we must FORCE the integrity of our elections.

If you do not take control of the election process to make it transparent, fair & honest then you will lose your Rights & Freedoms forever.

Take back control from the governments and the political elites and only vote for those who agree that it is time for such a revolution.

As Albertans you have the Right to live Free.

I Am Albertan.
