

The ABFree Scumbag Speed Test for Politicians & Political Scumbags

This ABFree political scumbag test is a series of speed questions for politicians & political scumbags alike. The goal is to acknowledge that each item on the list below is indeed a problem or not (Yes/No only). If Yes explain a solution in under 10 seconds for each of these issues facing our society. If they can't provide a solution in 10 seconds, then you know that you are probably dealing with a political scumbag. Try the test yourself or on your friends or in a bar where going past 10 seconds requires a shot. The Liberals, NDP & Socialists will either be alcohol poisoned by the end or will fly through the test by saying that none of these are problems. Either way you will know exactly who you are with. If they are dead drunk or stone cold sober. Make them wear a 'political scumbag' hat or tag the rest of the night.
